Zainab (as) Organization of Greater Seattle is a local community organization. Through social services, we strive to provide short term aid to families as a safety net. These focus of these services are as follows:

- a. The geographical scope is primarily the greater Seattle area.
- b. We are able to provide short term financial assistance subject to availability of funds.
- c. In cases where alternate sources of help is available (like public agencies) we can help direct the applicants there.
- d. In most cases the aid we offer is in the form of qarz-e-hasana (interest free loans) and expect the applicants to pay back the loan over an agreed upon time period. In this way we are able to cycle the resources.

We are not in a position to:

- a. Offer loans for purposes such as business, purchase of automobiles/houses etc.
- b. Offer long term financial aid.

All decisions by the Zainab (as) social services committee are final.
